COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Sir:

In response to the Examiner's statement of reasons for the indication of allowable subject matter at page 5 of the May 27, 2005 Office Action, Applicants have the following comments.

Line 3 of the statement should read "scaled *and/or* rotated version of the basis function" rather than "scaled and rotated version of the basis function". Claims 14 and 72 encompass embodiments where the basis function is correlated with a scaled version of the basis function, while Claims 18 and 76 encompass embodiments where the basis function is correlated with a rotated version of the basis function. Hence, the claims do not require

correlation with a version of the basis function that is both scaled and rotated.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should be directed to our below-listed address.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "B. L. Klock", written over a horizontal line.
